

Single-phase Uninterruptible Power System

Rittal can now offer a cost efficient serie of single-phase UPS systems ranging from 750VA to 10kVA that includes both rack and tower units, line-interactive and on-line. Expandable battery-systems.

Mars Intelligent On-line UPS

- Double conversion On-line
- Singel-chip Microprocessor Control
- Optional Power Charger
- 1000VA/2000VA/3000VA
- Price effective on-line solutions
- High overload capability
- Battery boxes for longer backup

Mars RT Pro Convertible Series On-line UPS

- Super Compact Convertible Design
- Programmable Receptacles
- Power Range and Runtime Scalability
- 1000VA/2000VA/3000VA
- Battery boxes for longer backup
- Power factor 0,8-0,9
- Minimized depth as option (Odin)

Mars II Parallel Redundancy On-line UPS

- Parallel Redundancy & Load Sharing
- Programmable Frequency Converter
- Power Range and Runtime Scalability
- 6000VA/8000VA/10000VA
- Battery boxes for longer backup

Mars II Convertible Redundancy On-line UPS

- Parallel Redundancy & Load Sharing
- Super Compact Convertible Design
- Power Range and Runtime Scalability
- 4500VA/6000VA/8000VA/10000VA
- Supplied as power modules or with builtin batteries
- Extra charger on demand

Line-interactive UPS

Janus Series Line-interactive Sinewave

- Output Power Factor 0.9
- Faster High Rate Charger
- RS232/USB/SNMP Slot or relay card
- 750VA/1000VA/1500VA/2200VA/3000VA
- Usable as tower or rack 19"
- LCD-display

Janus XL Series Line-interactive Sinewave

- Output Power Factor 0.9
- Powerful charger ready for extended runtime
- RS232/USB/SNMP Slot or relay card
- 1000VA/1500VA/2000VA/3000VA
- Powerful x-tra charger for longer backup
- Usable as tower or rack 19"
- LCD-display

Jupiter Pro Series Line-Interactive Sinewave

- Built-in AVR
- User Friendly LCD Display
- Patent RS232 and USB Ports
- 1000VA/1500VA/2000VA/3000VA
- Price-effective models
- Hot swappable batteries
- LCD-display

About Rittal UPS's.

The Rittal UPS's is ideally suited to all applications in the IT environment, as well as for all other requirements such as medical technology, automation technology, plant control etc.

A scalable autonomy of up to 2 h at 100 % load ensures a broad spectrum of applications.

Batteries "hot swap" compatible, may be exchanged from the front. 10-year batteries available at request. Rittal also offer bigger UPS systems, range from 10 kVA to 2,7 MVA.
